

WHAT CAN GERONTOLOGY ADD TO YOUR PSYCHOLOGY DEGREE?

UNC Charlotte offers an Undergraduate Minor, a Concentration in Gerontology with the Interdisciplinary BA, and Graduate Certificate in Gerontology (with an [Early Entry](#) option)

WHAT IS GERONTOLOGY?

Gerontology is the study of longevity. Students of gerontology study not only physiological changes that occur with aging, but also social roles, normative expectations, attitudes and beliefs, stereotypes, and policy, health and economic issues which define the aging experience.

HOW DOES GERONTOLOGY COMPLEMENT MY PSYCHOLOGY DEGREE?

As the proportion of older adults continues to increase, clinical and counseling psychologists are continually treating an increasing number of older clients. This increase has brought about an increase in the proportion of research psychologists studying aging and memory, aging and personality, aging and social relationships, aging and work, aging and health, aging and law, aging and every area of Psychology.

Whatever concentration you choose in Psychology, knowledge about Gerontology will play an important role and put you a step ahead of competitors.

WHAT UNC CHARLOTTE FACULTY SPECIALIZE IN THIS AREA AND WHAT ARE THEIR RESEARCH INTERESTS?

Maria-Carla Chiarella, Ph.D., chiarella@charlotte.edu, Positive aging, specifically identifying effective coping skills related to adjustment to mid-life transitions, enhancement of long-term relationships, and management of grief and bereavement.

Meg Davenport, Ph.D., mdaven18@charlotte.edu, Workplace aging, motivational processes across the lifespan, how workplace learning and job search are impacted by age-related changes.
